

March 13, 2009

Dear Parents,

We are so excited to be planning our fifth year at Crossroads Christian School. We thank you for partnering with us this year and hope you plan to join us for many more years to come. We hope that our school stands out to you for many reasons.

First, a solid academic foundation is being provided to your child. The majority of our teachers are either ACSI certified or have state certification. They continue to develop their skills through teacher workshops and preparing themselves for ACSI accreditation. Our teachers use their expertise to teach using not only the textbooks but using units they develop to enhance the curriculum. You may keep in constant contact with each teacher and monitor your child's grades through RenWeb, our grade book on line.

Second, an atmosphere full of love and learning is evident in our halls. We have teachers and staff who truly care. Students are prayed for daily as each teacher takes a personal interest in their students. They desire for students to succeed and be all that God has created them to be. Extra tutoring is offered before and after school as needed. We also participate in many academic competitions such as the ACSI Spelling Bee, Art Competition, and Math Olympics. Our Beta club membership is large and continues to grow. Our graduates leave us to attend major universities.

Third, we have chapel each week for our lower and upper schools. We provide moving speakers who challenge kids each week through praise and worship. We incorporate values and Biblical principles being taught throughout the day. We recognize special achievements each month through our Little Light awards in lower school chapel. Next year we will begin a merit system for our upper school students.

Fourth, our welcoming and clean facilities make adding fun activities to our school community easy. We have an annual homecoming week full of spirit and pride, a Thanksgiving feast where the lower grades remember the first Thanksgiving through history and food, Doughnuts with Dads, and displays of projects by the upper school. We have a full service cafeteria and an amazing gymnasium.

Fifth, our athletic program has experienced many great achievements. Our volleyball team went to nationals this year and our girl's basketball team competed in the state tournament. We had a group of forty-three Little Colts cheerleaders at home games this year. We expect our athletes to not only excel on the playing fields but also in the classrooms.

As we continue to prepare for our fifth year at CCS, we ask that you pray for us as a school. Please pray that we will continue to enhance students' spiritual, academic, and physical growth. Thank you for all you do, and it is our hope that you have had the chance to experience everything that Crossroads has to offer. If not, please stop in and we will take you on a personal tour.

In His Service,

Jeanae Wheeler
Headmaster
