## College News.....

### Notes from Mrs. Choplin:

Seniors, keep checking the school website under College Planning to stay on top of news about scholarship opportunities, financial aid, college info, and more. If you need to meet with me about any aspect of your college plans, make an appointment - Tuesdays and Thursdays are my best days.

**Reminder:** If colleges need a high school transcript sent to them, please fill out a Transcript Request Form and turn in to the Front Office or place in my mailbox in the office. You can download one in either Word format or PDF format from the school website under College Planning or pick up a hard copy from the Front Office or me.

### Coming up in April/May:

I'm working on getting campus visits with Vance-Granville Community College and possibly Wake Technical Community College. For those of you interested in visiting a community college and finding out about their programs, including college transfer opportunities, watch for more info!
